PAVEMENT CUT APPLICATION

Scope of work: Requesting pavement cut to install ...
Justification for pavement cut: (A verifiable emergency must be specified to cut pavement newer than two years old.)

Mesa City Code requires all pavement cut activities to have an approved permit and be restored in accordance with City standards and specifications (Mesa Standard Detail M-19.04.3). Title 9, Chapter 1 of the Mesa City Code requires a pavement restoration fee for cutting pavement that is newer than five years old. A four-tier pavement cut rate structure is based on pavement age and size of cut. Pavement cuts include potholes, pavement damage, trenching, etc.

In addition to the pavement restoration fees, pavement cuts within the first year will be subject to a mill and overlay requirement for a minimum width of all lanes impacted by the pavement cuts. The minimum length for mill and overlay on each side of the cut will be 50 feet for arterial streets and 25 feet for collectors and residential streets. However, for one pothole per permit, the requirement to mill and overlay the street shall not apply, and the pavement restoration fee for that pothole will be waived.

Pavement age for city streets is found at the “pavement cut restrictions interactive map” site, located at <http://mesaaz.gov/maps/>. Pavement age is required to complete the chart on the following page.

Cut Size	< 200 SY	> 200 SY
Fee	\$1,000 + \$10/SY	\$1,000 + \$8/SY

Pavement Restoration Fees

All sidewalk and pavement cut activity shall have an approved permit. If a proposed activity, use or encroachment includes cutting into, attachment to or any break in the sidewalk or street pavement, the Permittee shall be required to pay a pavement damage fee established by the City and to restore the pavement in accordance with this chapter and all other City standards and specifications. Other fees, charges or taxes may be imposed depending on the use made of a City street or highway.
