FOR IMMEDIATE RELEASE

February 15, 2012

Residential Fire

At approximately 4 p.m. on February 14, a neighbor reported a fire in the garage of a residence in the 900 block of Big Horn Drive. The first arriving fire unit found the garage fully involved and extending into the attic space of the residence. Three engine companies, one truck company, and a Battalion Chief initially responded and gained control of the fire. A fourth unit responded to provide additional manpower and assistance in overhaul and salvage operations. First arriving units confirmed occupants of the residence had evacuated the home safely and no injuries were reported by the firefighters. Members from the CERT team arrived and provided support to firefighters on the scene, which helped crews get back into service and ready for additional assignments. Damages were estimated at \$125,000. The cause of the fire is under investigation.
