COUNCIL COMMUNICATION

TO: Honorable Mayor and Council

FROM: J. Greg Froslic, Public Works Director

SUBJECT:

Award Bid for the North Regional Wastewater Treatment Plant Chain & Rake Bar Screen System and Washpactor Replacement to JWC Environmental (*Greg Froslic*)

FUNDING SOURCE:

Wastewater Utility Fund

PURPOSE:

Award Bid for the North Regional Wastewater Treatment Plant Chain & Rake Bar Screen System and Washpactor Replacement, ITB No. B21-WWTP-500088 in accordance with City Code § 3.10.030.1.

BACKGROUND:

Bids were opened on September 30, 2020, for replacement of the North Regional Wastewater Treatment Plant Chain & Rake Bar Screen System and Washpactor. There were four bidders, ranging from a low and recommended bid of \$228,890 to a high bid of \$359,500. The budget estimate is \$382,000.

The bid received from Ovivo USA, LLC in the amount of \$136,700 (without the “Adder” of the Control Panel) or \$163,278 (with the “Adder” of the Control Panel) and the bid received from Parkson Corp. in the amount of \$198,500 would need to be added together for a combined total of either \$335,200 (without the Control Panel) or \$361,778 (with the Control Panel). The bid received from Ovivo USA, LLC is only for the Wash/Compactor, adder of Control Panel and on-site assistance for 5 days, and the bid received from Parkson Corp. is only for the Screens and 5 days on-site assistance.

Staff recommends award to JWC Environmental, as the lowest bidder meeting the specifications at \$228,890, for the screening system, sluice system, wash press and 15 days of on-site assistance. The exceptions JWC noted on their bid are acceptable and don’t pose any issues.

The current Chain & Rake Bar Screen System and Washpactor at our North Regional Wastewater Treatment Plant (NRP) have deteriorated and are at the end of their life cycle, and were identified as asset replacements this Fiscal Year through Lucity.

COMMUNITY IMPACT:

Evaluating and replacing critical assets in our Utilities System ensures both functionality and efficiency for our citizens and rate payers. This saves high maintenance costs over the next several years, improves reliability and increases capacity, possibly delaying major upgrades for capacity issues.

FISCAL IMPACT:

Funds are available in the Wastewater Fund Capital Outlay account.

ATTACHMENTS:

Bid Tabulation

SUGGESTED MOTION:

I move to award the bid for the North Regional Wastewater Treatment Plant Chain & Rake Bar Screen System and Washpactor Replacement to JWC Environmental in the amount of \$228,890.
